

Healthcare Financial Solutions

Borrowing and credit for your business

Establishing and building a successful healthcare business means facing a steady succession of financial challenges and opportunities. With BBVA Compass, you have a team that understands these unique requirements and has the experience to tailor lending and credit solutions that meet your needs over the entire lifespan of your business.

Starting a practice

When you need financing to set up a new practice or join an existing practice, we can help you make the transition with a customized start-up loan or buy-in loan.

Buying or leasing real estate

Whether you are buying or need lease hold improvements, our commercial real estate specialists can help you find the right option for your business needs.

Growing and investing

Whether you're upgrading your current space, expanding into new locations, or investing in a partnership or facility, we can tailor solutions for every stage of your healthcare business—from working capital financing to airplane loans.

Flexible credit options

Add to your purchasing power and convenience with BBVA Compass Visa® credit cards and flexible business lines of credit. Healthcare businesses with large or complex procurement and purchasing needs can benefit from our Compass Purchasing Card program.

SBA loans

If you're considering buying, building, renovating, or refinancing commercial property for your business, an SBA loan may be an option. BBVA Compass has earned SBA's "National Preferred Lender" status and we have an entire team of individuals who are experienced in this type of lending.

Interest rate protection

If you have concerns about your company's floating rate debt and its potential impact on your bottom line, we can suggest strategies and solutions for managing interest rate risk.
